NATIONALITY Dutch

LANGUAGES Dutch (native), English (fluent), French (Good), Spanish (Regular), Portuguese (Regular)

EXPERTISE Joost holds a MSc/ agricultural engineering degree in Water Use Management, with more than 27 years of experience in various countries in the region, like Tanzania including Zanzibar and Pemba, Burkina Faso, Mozambique, Morocco, DRC, Rwanda as well as in Ecuador outside the region.

As co-director/Consultant for eMJee Development Consult LTD he is engaged in various assignments for NGOs, Development Partners, the Government/World Bank and the Millennium Challenge Corporation. These assignments vary from context analyses, assessing bilateral cooperation programs, process facilitation, Organisational Development, support to urban development initiatives and oversight missions related to irrigation schemes and training for water user associations in the irrigation and water supply sector. As part of the MCC oversight assignment he travelled, for the last three years, on behalf of Roche consulting group, frequently to Morocco and almost every two months, for a two-weeks field trip to Burkina Faso. This assignment has ended in November 2014.

He has been involved as in institutional/ agricultural expert in conducting, as the local team leader, the strategic regional environmental and social assessment of the Southern agricultural growth corridor, and recently started for DFID an assignment with ERM on preparing a Strategic Environmental and Social Assessment (SESA) of Integrated Water Resources Management and Development (IWRMD) Plan for Rufiji Water Basin in Tanzania.

He has been involved in various water supply evaluations and in WASH activities. He is involved in the support program to the Rwandan Natural resource agency and works with the Director General and the Deputy Director General to support the institutional aspects related to embedding IWRM in the ministry of natural resources as well as providing advice towards meeting capacity building requirements for the Agency.

WORK EXPERIENCE

Before starting as Director/ consultant for eMjee Development Consult LTD, he was engaged as a manager of a multi-disciplinary team of professional advisors in Tanzania. This team deals with national initiatives as well as local/regional activities.

Main focus is to manage change processes that will lead to improved performance and enhanced quality of services delivery in areas of education, integrated water resources management, water supply/sanitation and income generating activities. He held a similar function in Mozambique.

From 1995 to 1999 he worked in Riobamba and Quito in Ecuador and was engaged in irrigation and integrated water resource management in the Andean Mountains. From 1988 to 1994 he lived and worked in Burkina Faso and was part of the team supporting "Projet Sensibilisation et Formation des Paysans autour des Barrages ». He was employed as a provincial coordinator before heading the irrigation department
